

Hello! If you are looking for diagnosis and bioresonance therapy in English, you are in the right place. Please, find below useful information on how to book a visit and some information about me. See you soon!

Bioresonance diagnostics & therapy in English

My name is Iwona Brzezińska-Ziernik. **I am a licensed naturopathic doctor.** In my Natural Medicine Clinic in Wrocław, I will help you regain your health. Thanks to comprehensive diagnostics and therapy using i.a. Metatron NLS Hunter 4025 and BICOM bioresonance I will remove the causes, not just the symptoms of ailments and diseases.

In addition, you will receive ready-to-use dietary advice that will accelerate the effects of treatment. You will buy supplements and herbs, tested by me and my patients. You will benefit from ear candling or moxibustion according to Traditional Chinese Medicine.

I invite you to the world of health without drugs. Thanks to the use of quantum physics in diagnostics, bioresonance therapy and methods consistent with what Mother Nature teaches us about health, I will help you regain health, and with it - the joy of life and inner peace.

A couple of words about me

I have lived in the UK for over 15 years, so **I speak English fluently.** It was in England that I became interested in bioresonance therapy. First, I used bioresonance myself to recover, and at some point, I wanted to help other people in this way as well.

I have completed numerous courses in the field of bioresonance therapy, ear candling and moxibustion, mostly in English. In the meantime, when I was gaining knowledge about the effects of bioresonance, I was purchasing devices necessary to perform diagnosis and therapy. Today I have 10 devices with various capabilities that allow me to quickly make an accurate diagnosis and choose the most effective type of therapy.

In 2021 I returned to Poland permanently and I opened my Natural Medicine Clinic in Wrocław. You are welcome!
